Aerogen nebulizers deliver an incredible four times more medication than traditional jet nebulizers, offering you unsurpassed efficiency and allowing you to give your patients the very best care available. They work independently to the ventilator settings meaning there’s no added flow, no nuisance alarms, no loss of PEEP when opened for refill and no drug wastage. Aerogen truly sets a new standard.

Breathe easy.

You’re giving the best care.
Imagine a company that understands the need for safe, easy-to-use products and then delivers cost effective solutions to ensure that outcome.

We are B&B Medical Technologies. Choose B&B for:

**Safe and effective products**
Clinically proven products for adult, pediatric and neonatal patients

**Versatile applications**
Critical care, anesthesia, emergency, transport, home care, alternate care

**Convenient packaging**
Everything at your fingertips

**Cost effective solutions**
Airway management, medication delivery, and more

Visit [www.BandB-Medical.com](http://www.BandB-Medical.com) for complete clinical application literature, instructional videos, and to request a sample to evaluate our World of Products for Better Breathing.
Improved Outcomes. Real-Time Data Accuracy.

Based on clinical evidence, INVOS® System labeling for site-specific blood oxygen monitoring has been expanded. This makes it the only commercially-available cerebral/somatic oximeter to be backed by the following claims.

- Improved outcomes after cardiac or major general surgery in patients > 2.5 kg
- On-label treatment of patients at any weight
  - > 2.5 kg: real-time data accuracy
  - < 2.5 kg: trend monitoring
- Noninvasive indication of $O_2$ changes in the cerebral and peripheral circulatory systems
  - Often providing an early warning of $O_2$ deficits associated with impending shock and anaerobiosis

Labeling claims not applicable to other devices as data was derived using the INVOS System and its proprietary algorithm.

© Somanetics Corporation. Somanetics, INVOS and “Reflecting the color of life” are registered trademarks of Somanetics Corporation. US federal regulations restrict the sale of this device to, or on the order of, licensed medical practitioners.
Our biggest concern is your smallest patient.

The name may be new, but CareFusion products have helped redefine the care of infants with measureable improvements in outcomes. From non-invasive support to conventional and high frequency ventilators CareFusion has the specialized tools you need to treat your most fragile patients.

Introducing the new GEM Premier 4000.
Simply. Revolutionary.

It's the breakthrough whole blood analyzer with integrated CO-Oximetry that quickly provides consistent, accurate, lab-quality results throughout your hospital—in one easy-to-use, comprehensive solution. Minimal set-up. Virtually no maintenance. Remarkable flexibility for every testing need. With GEMweb® Plus you get central control over all testing processes, while iQM®, IL’s patented intelligent quality management system, helps assure quality results and QC compliance 24/7, regardless of operator or testing location. The GEM Premier 4000 is revolutionizing blood testing—from the lab to the point of care.

Please contact your IL sales representative, at 1.800.955.9525, or visit www.ilus.com.
Neopuff™
Infant T-Piece Resuscitator

Continuing to raise the standard of care in infant resuscitation

THE NEOPUFF™ INFANT T-PIECE RESUSCITATOR PROVIDES OPTIMAL RESUSCITATION BY DELIVERING CONTROLLED PIP AND CONSISTENT PEEP.

With over 20 years of worldwide use and acceptance involving millions of safe and effective resuscitations.

The Neopuff™ Infant T-Piece Resuscitator continues to raise the standard of care for infant resuscitation.

To experience the Neopuff Infant T-Piece Resuscitator please visit us at the AWHONN 2009 Convention in San Diego. Or call us on (800) 446-3908 and we'll gladly come and visit you.
Special Delivery...
BiliSoft™ LED Phototherapy System

The next generation LED and fiberoptic based technology for treatment of indirect hyperbilirubinemia in newborns. Increased surface area, high spectral irradiance, and long lasting blue narrow-band LED light provide intensive, efficacious phototherapy as recommended by AAP Guidelines.

Plus, it supports and promotes developmental care, enables infant-parent bonding and provides healing light where it is needed – in the Neonatal ICU, Pediatrics, Well Baby Nursery and at home.

Announcing the latest additions to our Maternal-Infant Care family. We have given birth to a series of new, innovative solutions in microenvironments, phototherapy, resuscitation, intra-hospital mobility, monitoring, information solutions, ventilation, and education. Together we can re-think, re-invent, and re-discover.

For more information visit www.gehealthcare.com/perinatal or call 800-558-5120, select Option 7, then Option 3 (8am – 5pm CDT) to speak with a Maternal-Infant Care representative.
MIRACLES AT BIRTH - HAMILTON G5

The Hamilton G5 is designed to offer a choice of ventilation modes for neonatal, pediatric and adult patients requiring invasive or non-invasive ventilation.

With the unique features of Adaptive Support Ventilation (ASV) and the configurable user interface, the new neonatal option expands the G5 patient range down to the tiniest infants and premature babies. The proximal flow sensing provides the precise volume and leak monitoring with accurate, responsive triggering that your smallest patients demand.

Visit www.hamilton-medical.com for additional information or please send an e-mail to info@hamiltonmedical.net
Nicolet neurological equipment, supplies, and solutions are now an integral part of CareFusion.

The Nicolet ICU Monitor is used for continuous monitoring of acutely ill patients at risk for brain damage. Minutes and even seconds can mean the difference between life and death and the quality of life after recovery.

System Features:
- Networking for real-time remote review
- Easily configurable for neonatal through adult applications
- Extensive trend library
- Alert notification
- Central Station with trends and raw data
- Full montage flexibility
- Video with remote control camera
- Small footprint

Formerly Cardinal Health and VIASYS® NeuroCare

Research Grants Available

The Goldstein Foundation for Medical Research is a non-profit corporation formed for the purpose of supporting research and education specific to neonatology and perinatology.

We are now accepting requests for modest grants to help support research or education in all areas of neonatal intensive care medicine with a special interest in neonatal respiratory care. Grants requested can include:

- Clinical research on any aspect of neonatology or perinatology
- Laboratory studies that benefit neonates
- Educational development projects
- Support for development of position papers, meta-analyses, retrospective audit, or related reports

Simply send us a brief description of the objectives of the project and the amount requested. Potential candidates for foundation grants will be contacted by the Administrator.

Questions about the suitability of your research should be sent to:

Administrator, Goldstein Foundation for Medical Research
10940 Wilshire Boulevard, Suite 600
Los Angeles, California 90024

neonatal INTENSIVE CARE Buyer's Guide 2010 21
PRODUCTS AND SERVICES

Respondents were asked to select up to five categories that applied to their companies. We used previous information for firms that didn’t return forms. Also, if companies selected inappropriate or duplicate categories, we made a judgment call on the proper categories. Companies that returned forms have a more complete listing of all their product categories in the alphabetical section. Companies are responsible for the accuracy of all information in this directory.

COMPATIBLE - Our NeoMed Oral Dispensers are designed to work seamlessly with most new or existing pumps on the market WITHOUT introducing flow VARIANCES common with other Oral Dispensers.

SAFE - Our NeoMed Oral Dispensers are manufactured as single piece molded barrels that do not rely on adapters to create an oral tip.

Are You Sure that's the right Milk?

Are you concerned about potential misfeeds? Want to avoid contaminated or spoiled milk? Is complete feeding history an issue? At SafeBaby™, we hear this all the time. SafeBaby is the superior technology to validate and track all baby feeding activities.

SafeBaby helps you provide 100% Safety in Enteral Feeding:
- Follows Joint Commission Best Practices
- Utilizing Advanced Bar Code Technology
- Provided FIFO Inventory and Spoilage Tracking
- Allows Caregivers to be More Efficient
- Monitors Fortification and Feed Parameters
- Breast Milk Nutritional Analyzing for Optimal Growth and Development

Reach for the Stars

And triumphs become brilliant.

Inspired by the stellar achievements of the neonatal nurse. Specialized monitors offer sparkling bezel and screensaver; seamless access to comprehensive patient data; 4-parameter trending; plus flexible alarm management, including untethered remote control.

Comprehensive yet simple.
Keeping babies at the center of your universe.

Your tiniest patients often present the biggest ventilation challenges

Babylog 8000 plus
The Neonatal Intensive Care Ventilation Solution

Work in harmony with the delicate lungs of medically fragile neonatal patients – Dräger’s Babylog 8000 plus delivers precision control and dynamic leakage compensation. With leakage compensation, ventilation is more reliable. Clinicians rely on the versatility of using both pressure and volume modes of ventilation – including the Babylog’s pressure support volume guarantee mode of ventilation. Learn how you and your patients can benefit from Dräger’s 100 years of ventilation experience - in the NICU and throughout the ventilation care process. Visit www.draeger.com or email info.usa@draeger.com.

Dräger. Technology for Life®
